## About Us

Wail Hani Haddad & Par Co., ***HaddadPar*** a Jordanian company , was established as a commercial industrial company specializing in agricultural supplies, agricultural containers, and packaging materials. It caters to the Jordanian market and exports its goods to various countries globally. With origins dating back to 1967, the company represents a new era as the 3<sup>rd</sup> generation steps forward to the future . This new phase symbolizes a dedication to expanding business operations, focusing on manufacturing and exports, and meeting market demands.

## Harvest-Guard, Plant Protection Bag

Safeguard your fruits and crops using tailor-made bags that are specially crafted to meet their requirements. These bags permit the right amount of light and air to penetrate, ensuring optimal growth conditions while shielding the fruits from potential damage caused by adverse weather conditions like strong winds, extreme temperatures, and attacks from birds, wasps, and flies. Moreover, they aid in the photosynthesis process of agricultural crops. our company produces a variety of bags using different materials to accommodate various types of crops.

## Vegetables Bags

Agricultural produce sacks are crafted from woven plastic material designed for packaging agricultural goods like onions, potatoes, and more. These sacks are available in various colors and sizes, ranging from 3 kg to 35 kg in capacity.

7- Electric Strapping Machine Automatic Strapping.

8- Polychem Packaging Serrated Seals.

# JUTE

Providing a various type of Jute

1-Jute Rolls for agriculture use:

2-Jute Rolls for construction  
& decoration use:

3-Jute Sacks :

## Agriculture Non-Woven Fabric roll

The Agriculture Non-Woven Fabric roll plays a vital role in modernizing the agricultural sector by creating a protective barrier around seeds and seedlings. This innovative approach offers multiple benefits including protection against harsh weather conditions, pests, and environmental factors, leading to reduced irrigation costs, lower reliance on fertilizers, and pesticides. As a result, it enhances the overall efficiency and productivity of agricultural outputs.

## Custom Printed Non Woven Bags

Our environmentally friendly, branded non-woven bags are an excellent way to introduce your brand to a wider audience. These bags serve as an effective marketing tool, as they are durable enough to hold documents, books, and groceries, making them appealing to a wide range of customers due to their versatility. Additionally, they have an attractive appearance.

## Fruit & vegetable PET containers
